# Public Health Data: Systems and Modernization

---

eHealth Commission Spotlight - Colorado Department of Public Health & Environment

# Overview & Introductions

<p>Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems: Data Modernization</p>	<p>Andrew Putnam Business Technology Product Director Administration Division</p>	
<p>Epitrax and Data Lakehouse</p>	<p>Aleis Malouf</p>	<p>Keegan McCaffrey</p>
	<p>Technology &amp; Product Administration Manager</p>	<p>Communicable Disease Technology - Epidemiology Informaticist</p>
	<p>Disease Control and Public Health Response Division</p>	
<p>Health Information Data Systems Portal</p>	<p>Kelsey Minor, MPH Public Health Informatics Program Manager Center for Health and Environmental Data</p>	
<p>Air Pollution Data Modernization &amp; Visualization</p>	<p>Adam Wozniak Business Product Owner Air Pollution Control Division</p>	

# CDPHE at a Glance

## Environmental Health

Air Pollution  
Control Division  
(APCD)

Division of Health and  
Environmental  
Sustainability (DEHS)

Hazardous Materials and  
Waste Management  
Division (HMWMD)

Water Quality  
Control Division  
(WQCD)

## Cross-Agency

Administration  
Division  
(ADMIN)

Office of Health  
Equity (OHE)

Office of Public  
Health Practice,  
Planning and Local  
Partnerships

## Public Health

Center for Health  
and Environmental  
Data (CHED)

Disease Control and  
Public Health Response  
(DCPHR)

Health Facilities and  
Emergency Management  
Services Division  
(HFEMSD)

Office of STI/HIV/VH

Prevention Services  
Division (PSD)

# Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems: Data Modernization

---

**Andrew Putnam**

Business Technology Product Director

Administration Division

## Public Health Infrastructure Grant

- A3: Data Modernization
  - CORE-Yearly funding for 5 years to evaluate our systems and develop a plan for modernization.
  - Acceleration-5 Year block of funding for system modernization
  - Laboratory Data Exchange-5 Year block of funding for system modernization specific to the Lab

## Work includes

- Implement a Steering Committee
- Document the current State of the Systems (73 systems)
- Develop a future state for the department's health systems as a whole
- Develop implementation plans for each system
- Prioritize the work

# Proposed Future State

---

- Cloud Implementation
- Data lakehouse for data access and evaluation
- API interfaces for data ingestion and data access
- Standard visualization tools
- Low to No Code solutions

# Steering Committee Composition

---

- CDPHE Chief Medical Officer
- CDPHE Data Modernization Director
- Leadership representatives for the various health programs
- Central IT Representation
- Representation from other State Agencies such as the Office of eHealth Innovation
- Representation from the Local Public Health Agencies

# Systems to be evaluated

Encompasses Systems from 5 Divisions/Offices

	Office/Division	# of Systems
1	Center for Health and Environmental Data (CHED)	16
2	Disease Control and Public Health Response (DCPHR) Division	37
3	Health Facilities and Emergency Medical Services Division (HFEMSD)	4
4	Prevention Services Division (PSD)	8
5	Office of Sexually Transmitted Infections/Human Immunodeficiency Virus/Viral Hepatitis (STI/HIV/VH)	8

## North Star Architecture

- Specified under PHIG
- Not yet available

## Governor's Data Advisory Board (GDAB)

- Data Governance Subcommittee
  - Work is available in draft form
  - Will be available in 1 - 3 months

## CDPHE internal Data Governance Committee

- Will align with North Star and GDAB
- Will be available / active 1 - 5 years

# Current & Upcoming Projects

---

- Health Data Lakehouse
  - Target May - June 2024
- EpiTrax-Disease Surveillance
  - Target May - June 2024
- HIDS Portal 2.0 - Cloud Modernization
  - Target July 2026
- Colorado Immunization Information System
  - Went into production in December
- Birth and Death System
  - Went into production in January
- WIC Modernization
  - Planning Phases
- Health Facilities Modernization
  - Planning Phases

# Epitrax & Data Lakehouse

---

**Aleis Malouf**

Technology & Product  
Administration Manager

**Keegan McCaffrey**

Communicable Disease  
Technology- Epidemiology  
Informaticist

Disease Control and Public Health Response Division

# Disease Surveillance System Modernization (DSSM)

## Focused on:

- Siloed systems breaking.
- Duplicate data sets.
- Inability to support large volumes of data.

## Recommendations:

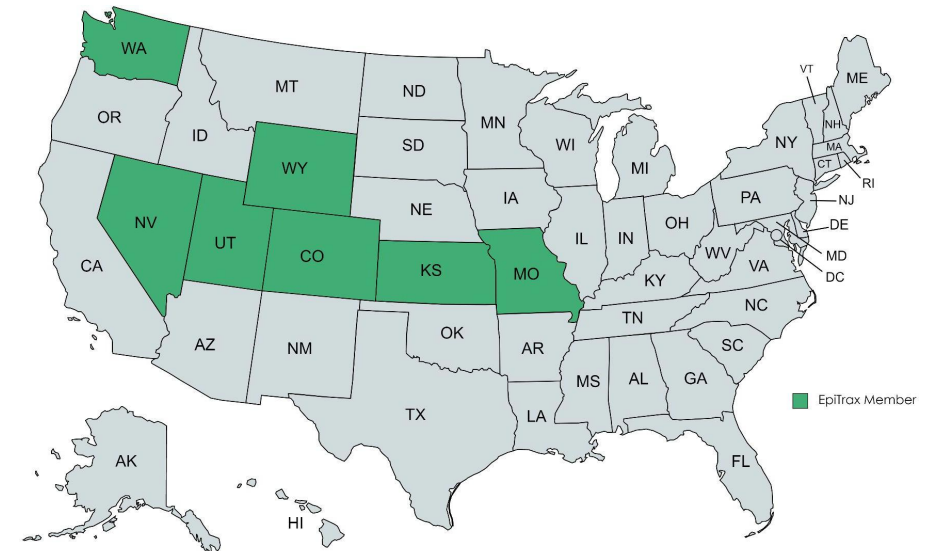

1. Bring all surveillance systems together in one application: Epitrax
2. Elevate CDPHE's data storage and analytics environment to allow for informed decision-making: Data Lakehouse

# Epitrax: Overview

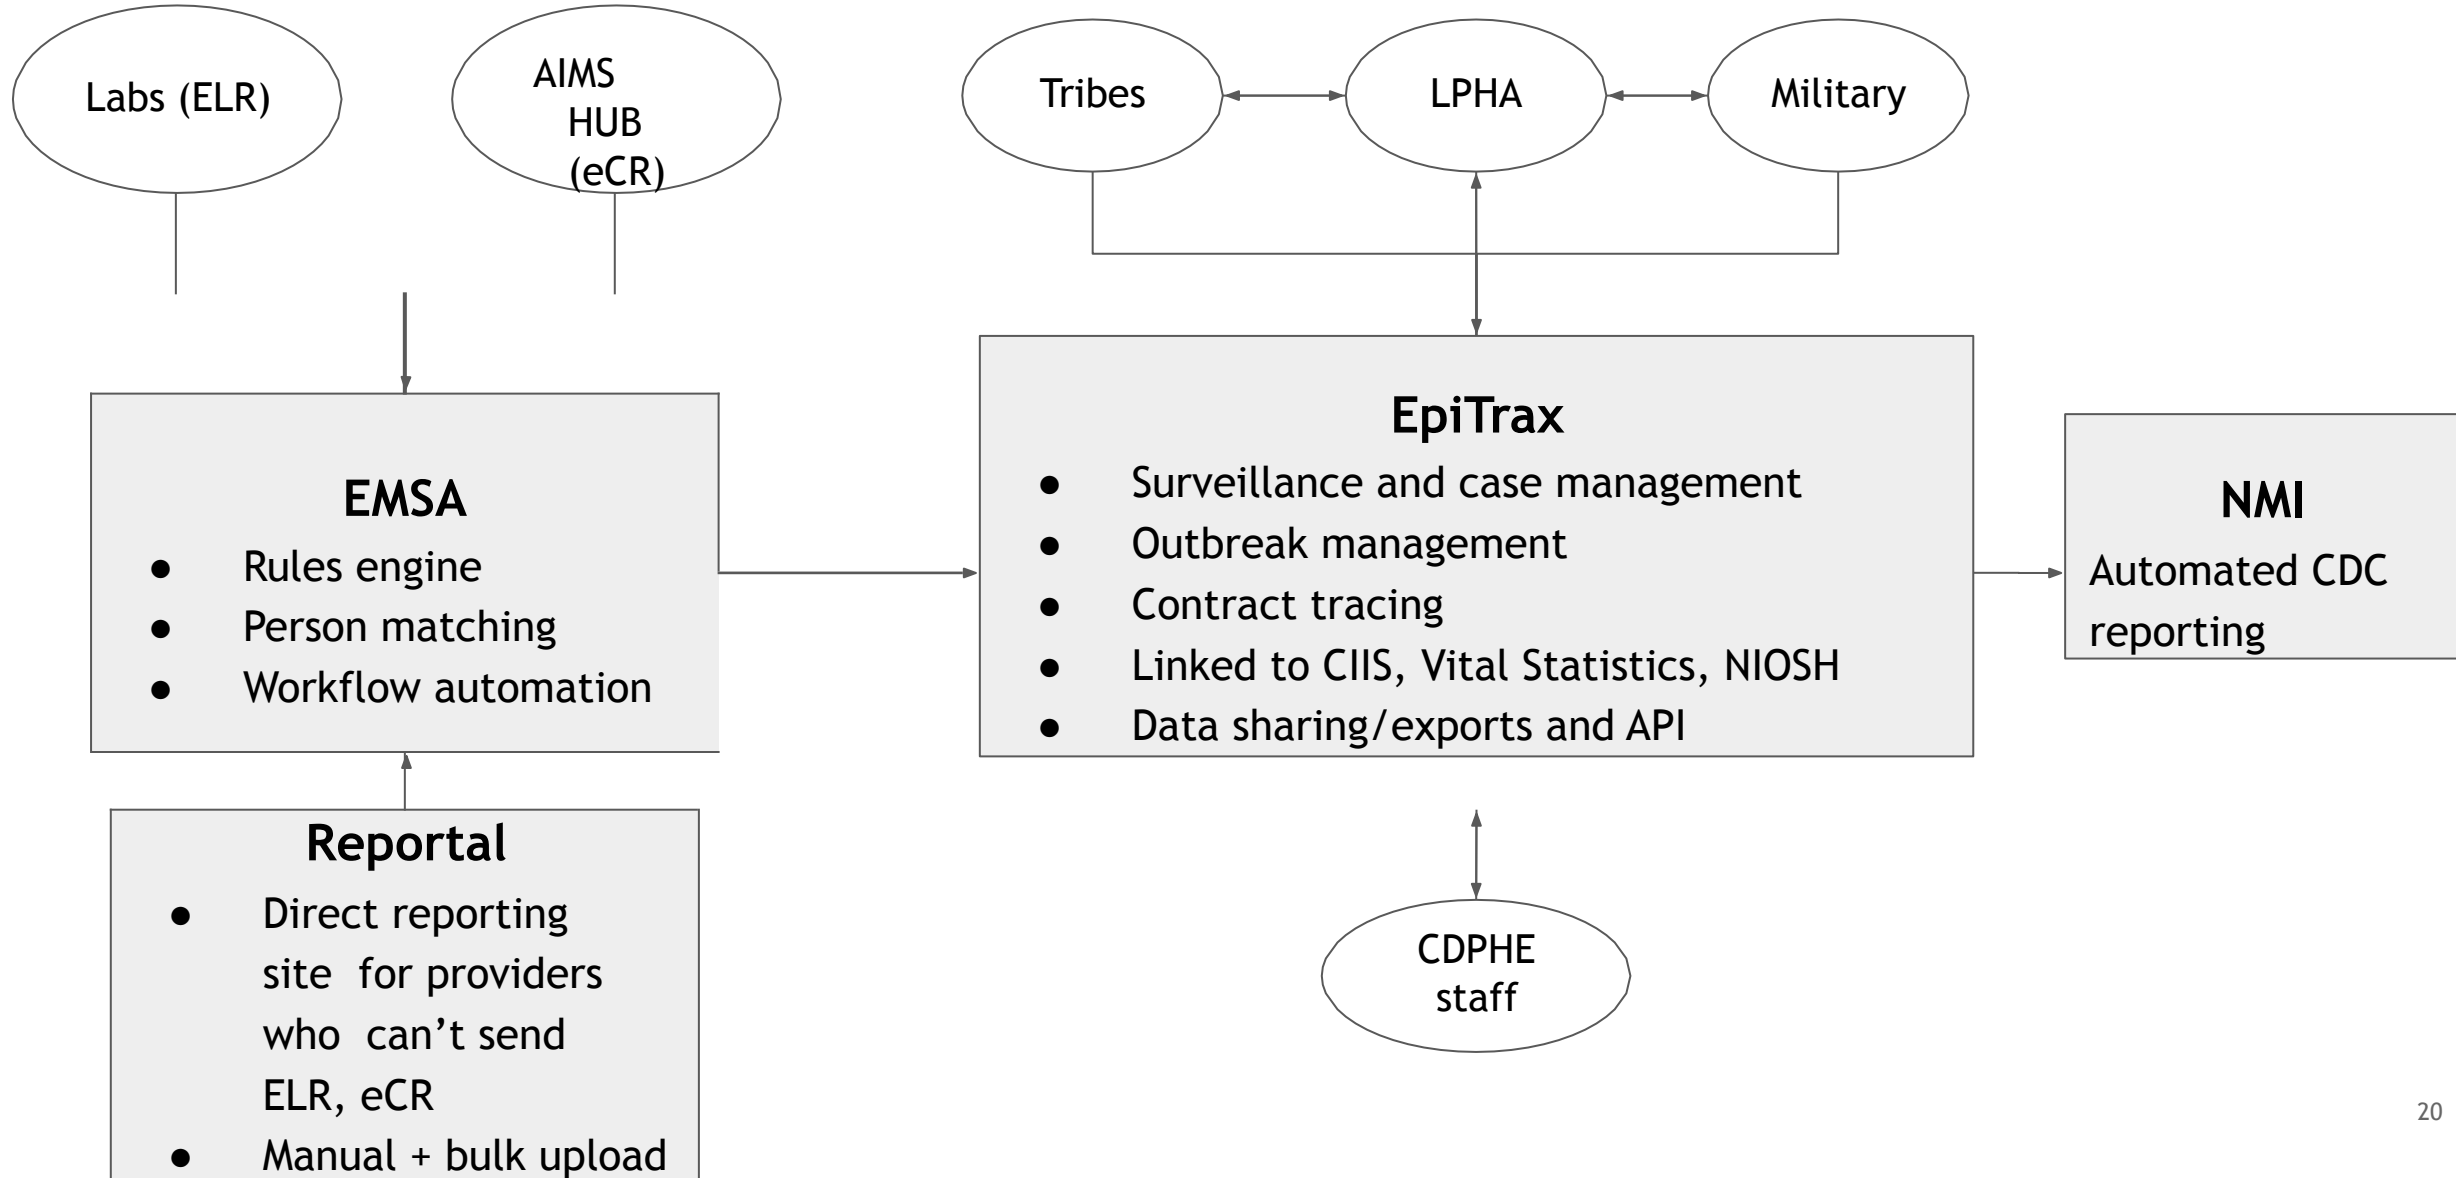

Open source disease surveillance system built by the **Epitrax Consortium**: Group of state and local public health jurisdictions combined resources to create and improve EpiTrax

- Designed for public health by public health.
- Share enhancements

Created with mapchart.net

# Overview

# Systems moving to EpiTray

CEDRS

Dr. Justina (COVID Database)

REDCap Outbreak Database

Lead (PbDB)

Zoonotic Disease Database

Perinatal Hep B

Tuberculosis (TBDB)

PRISM (STI/HIV Database)

Electronic Lab Reporting (ELR)

Electronic Case Reporting  
(eCR)

# Why

## EpiTrax?

- Single platform for disease surveillance
- Security and reliability
- Configurable by design
- Automated lab and case reporting (ELR, eCR)
- Improved data sharing and access for LPHAs
- Workflows for public health action
  - Active monitoring
  - Contact tracing
  - Outbreaks
- Integrations with CIIS and Vital Statistics

# Timeline

December 2022	Now	May 10-13, 2024	End of 2024
<p>Work began on EpiTrax in Colorado</p>	<p><b>Preparing for launch</b></p> <p>UAT Environment is available for practice with ELR and migrated data. Trainings and webinars are available for users.</p>	<p><b>Round 1 Epirax Launch</b></p> <p>CEDRS, ELR, Outbreak DB, Dr. Justina, and Zoonotic Disease DB transitioned to EpiTrax. EpiTrax is main system for CDPHE and LPHA reportable disease investigations.</p>	<p><b>Round 2 EpiTrax Launch</b></p> <p>PRISM (STIs), Tuberculosis DB, and eCR transitioned to EpiTrax.</p>

# Data Lakehouse Overview

CDPHE Public Health Data Lakehouse will provide an improved data management and analytics environment to benefit stakeholders.

Automation potential

Improved access

Centralized data storage

Improved data sharing capacity

Security and Data Governance

### COLORADO'S COVID-19 DATA

#### THIS WEEK'S OVERVIEW

##### Currently Hospitalized

Week	Number of Currently Hospitalized Patients
12/1/23	250
12/8/23	250
12/15/23	210
12/22/23	200
12/29/23	210
1/5/24	240
1/12/24	200
1/19/24	210
1/26/24	160
2/2/24	150
2/9/24	140
2/16/24	120
2/23/24	120
2/29/24	130
3/6/24	90
3/13/24	100
3/20/24	90

##### Trends in Diagnosed COVID-19 in Colorado Syndromic Surveillance System by Week

Week	Percent of all emergency department visits
12/18/23	1.8%
12/25/23	1.7%
1/1/24	2.1%
1/8/24	1.6%
1/15/24	1.4%
1/22/24	1.2%
1/29/24	1.3%
2/5/24	1.0%
2/12/24	0.8%
2/19/24	0.7%
2/26/24	0.6%
3/5/24	0.5%
3/12/24	0.4%

Currently Hospitalized	<b>95</b> (▼8)	ED Visits Diagnosed with COVID	<b>0.4%</b> (▼0.2%)	New hospital admissions this week	<b>109</b> (▼19)
Weekly sentinel positivity rate	<b>3.7%</b> (▼1.2%)	Cases reported this week	<b>767</b> (▼109)		

# Data Lakehouse Timeline

December 2023

January 2024

April 2024

July 2024

August -  
December 2024

MVP set up  
with  
production  
data

Build on the MVP to build  
data marts and train  
power users on CoRE

Full production  
lakehouse implemented

Continued expansion and  
improvement of  
Lakehouse functionality,  
through the end of the  
contract

Evaluation and  
prioritization towards  
bringing new data sources  
into environment

# Health Information Data Systems Portal

---

**Kelsey Minor, MPH**

Public Health Informatics Program Manager

Health Information Systems Branch

Center for Health and Environmental Data

## Health Information Data Portal

### 1. DATA ENTRY

HIDS is a secure data portal that uses role based access to allow partners & stakeholders the ability to provide data thru numerous modalities:

- Manual data entry via customized application solutions built in-house
- Automatic data upload via secure data transfer methods
- Public facing web collection tools (when appropriate)

### 2. DATA MANAGEMENT

HIDS is managed by a data management team who

- Maintain the the portal
- Maintain the custom application solutions that live within the portal
- Ensure that data is collected to program/funder specifications
- Analyze and report data sets to partners & funders as requested or required

### 3. DATA VISUALIZATIONS & ACCESSIBILITY

The data management team is responsible for ensuring that the data collected within HIDS is accessible to funders, partners & the public as necessary or required via

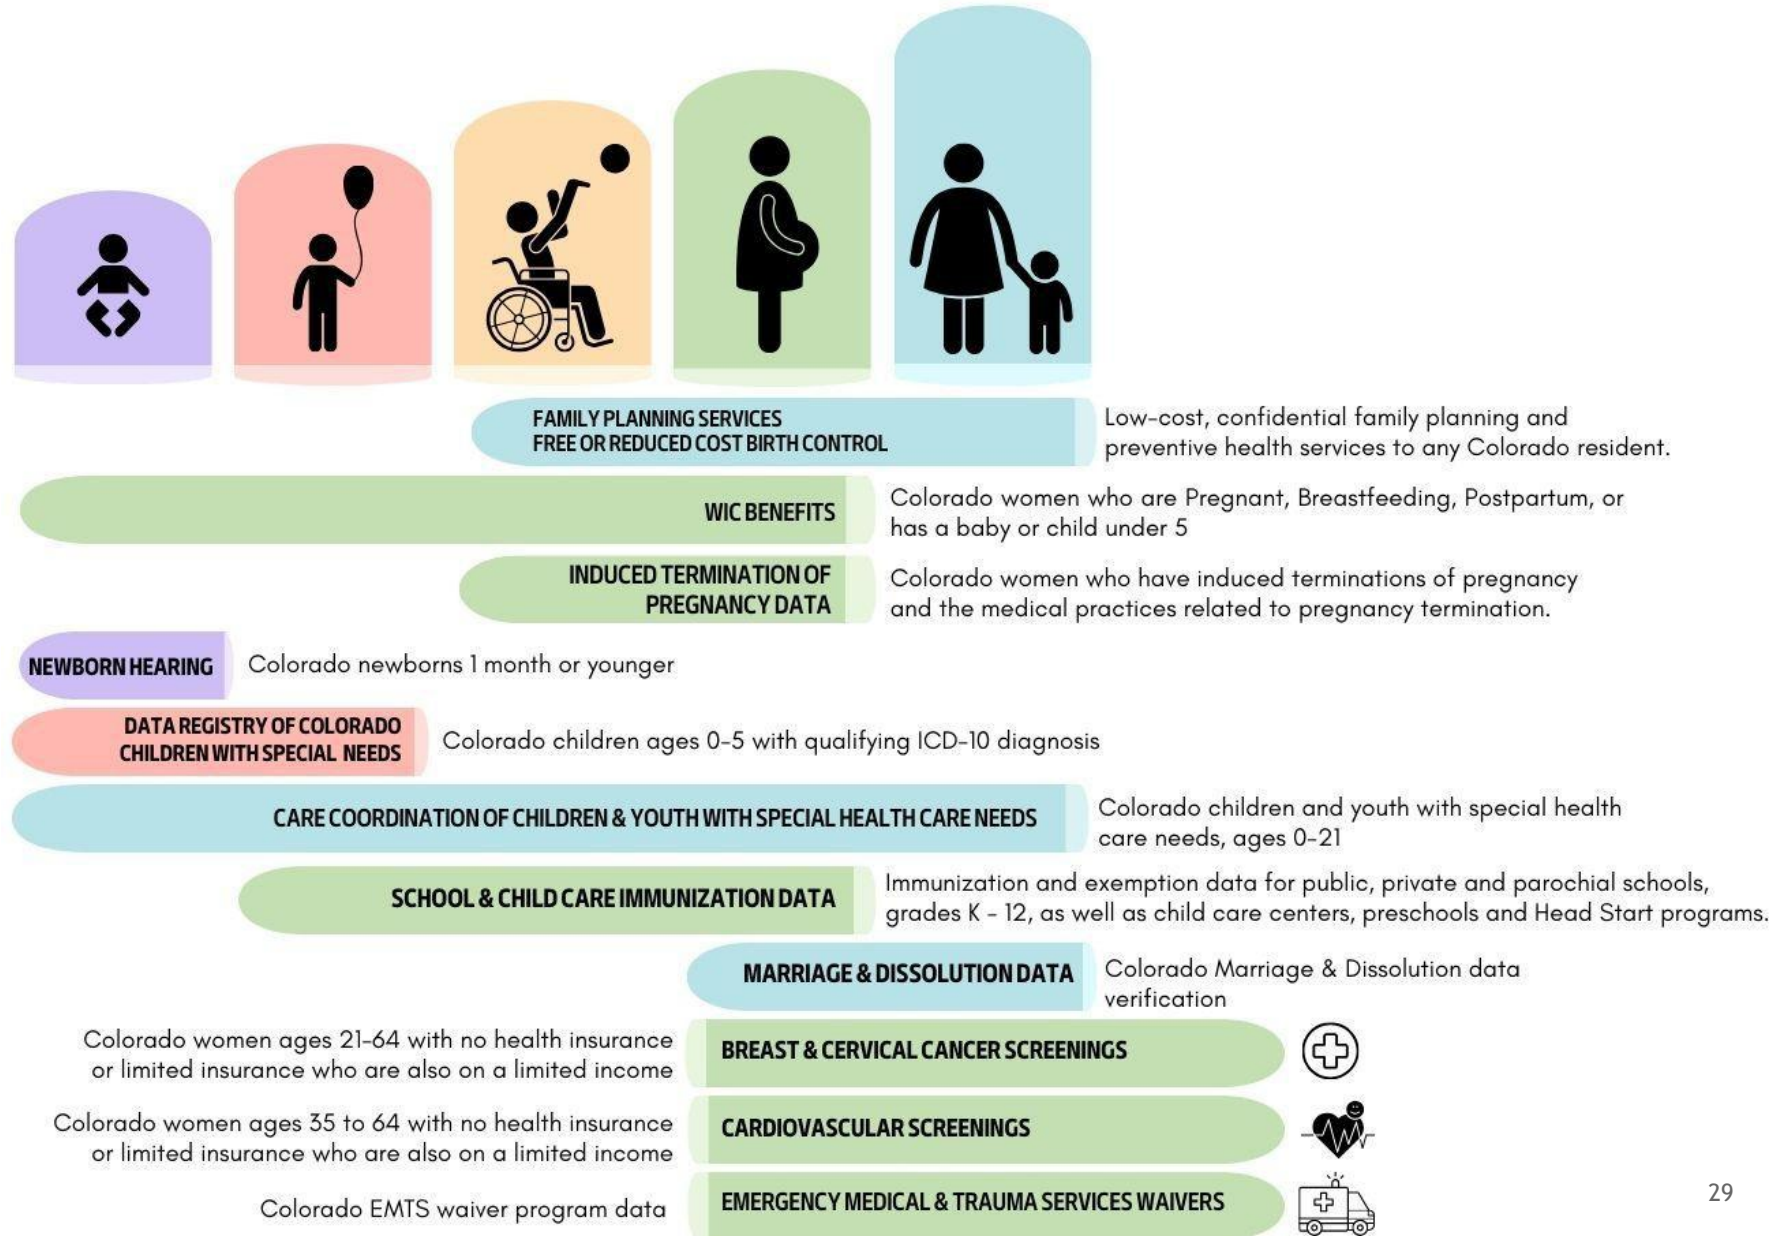

- Privately published data dashboards that use role based access to limit data sets based on user permissions
- Publicly published data dashboards

# HIDS

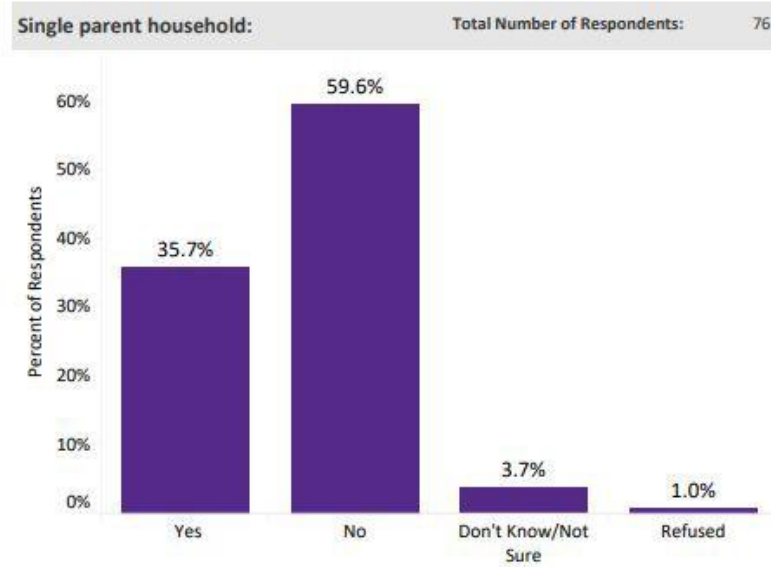

Collect non-communicable data for public health initiatives that target Coloradans across the lifespan, focusing on vulnerable populations

HIDS uses role based access to restrict data & to ensure that all data visualizations are securely accessible to partners, stakeholders & the public.

Total Number of Respondents: 548

Number of persons in [child/youth]'s household:

1	7	1.5%
2	50	10.7%
3	112	24.0%
4	130	27.8%
5	82	17.6%
6	46	9.9%
7	31	6.6%
8 or more	3	0.6%
Don't Know	19	4.1%
Refused	5	1.1%
Number of Respondents	467	100.0%

Highest education level in household:

Total Number of Respondents: 507

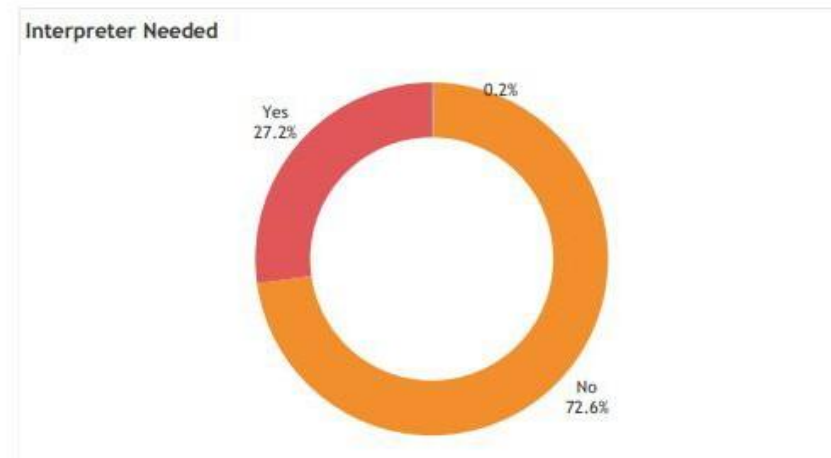

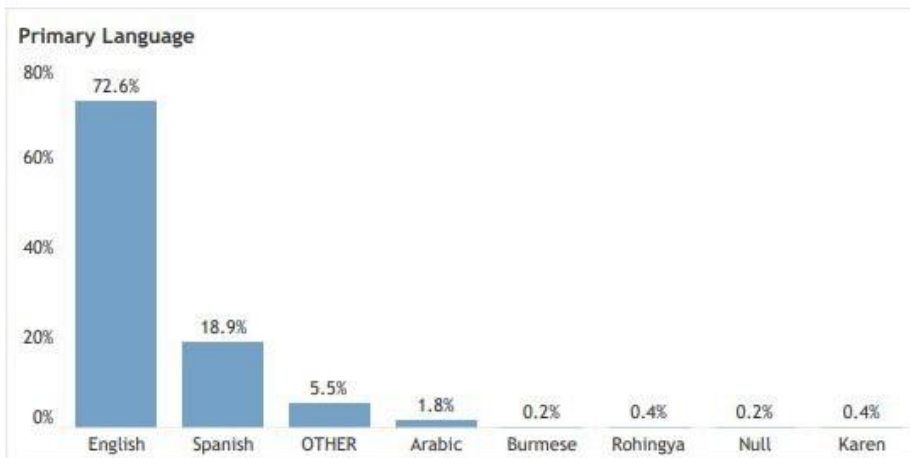

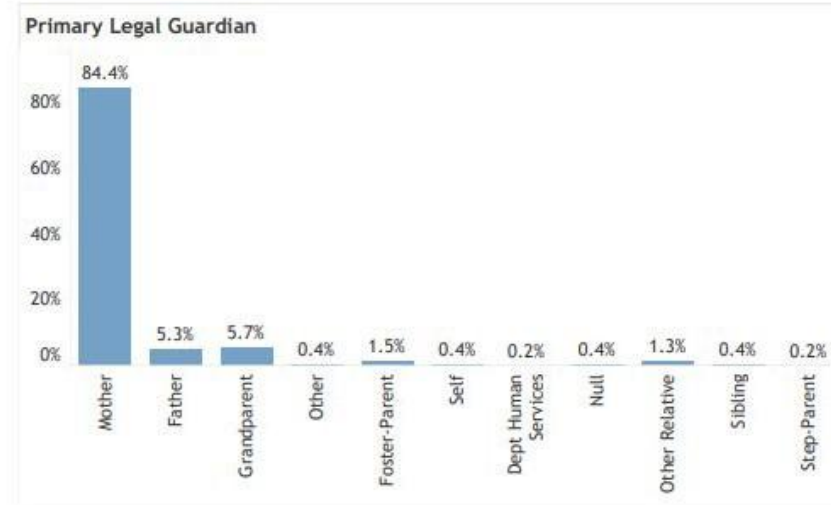

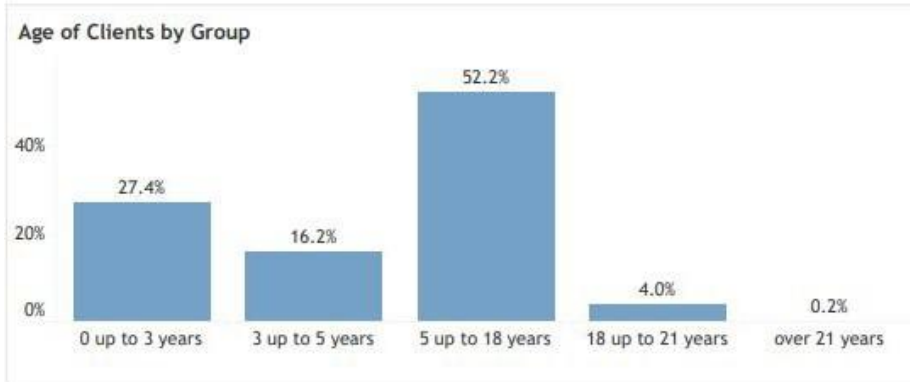

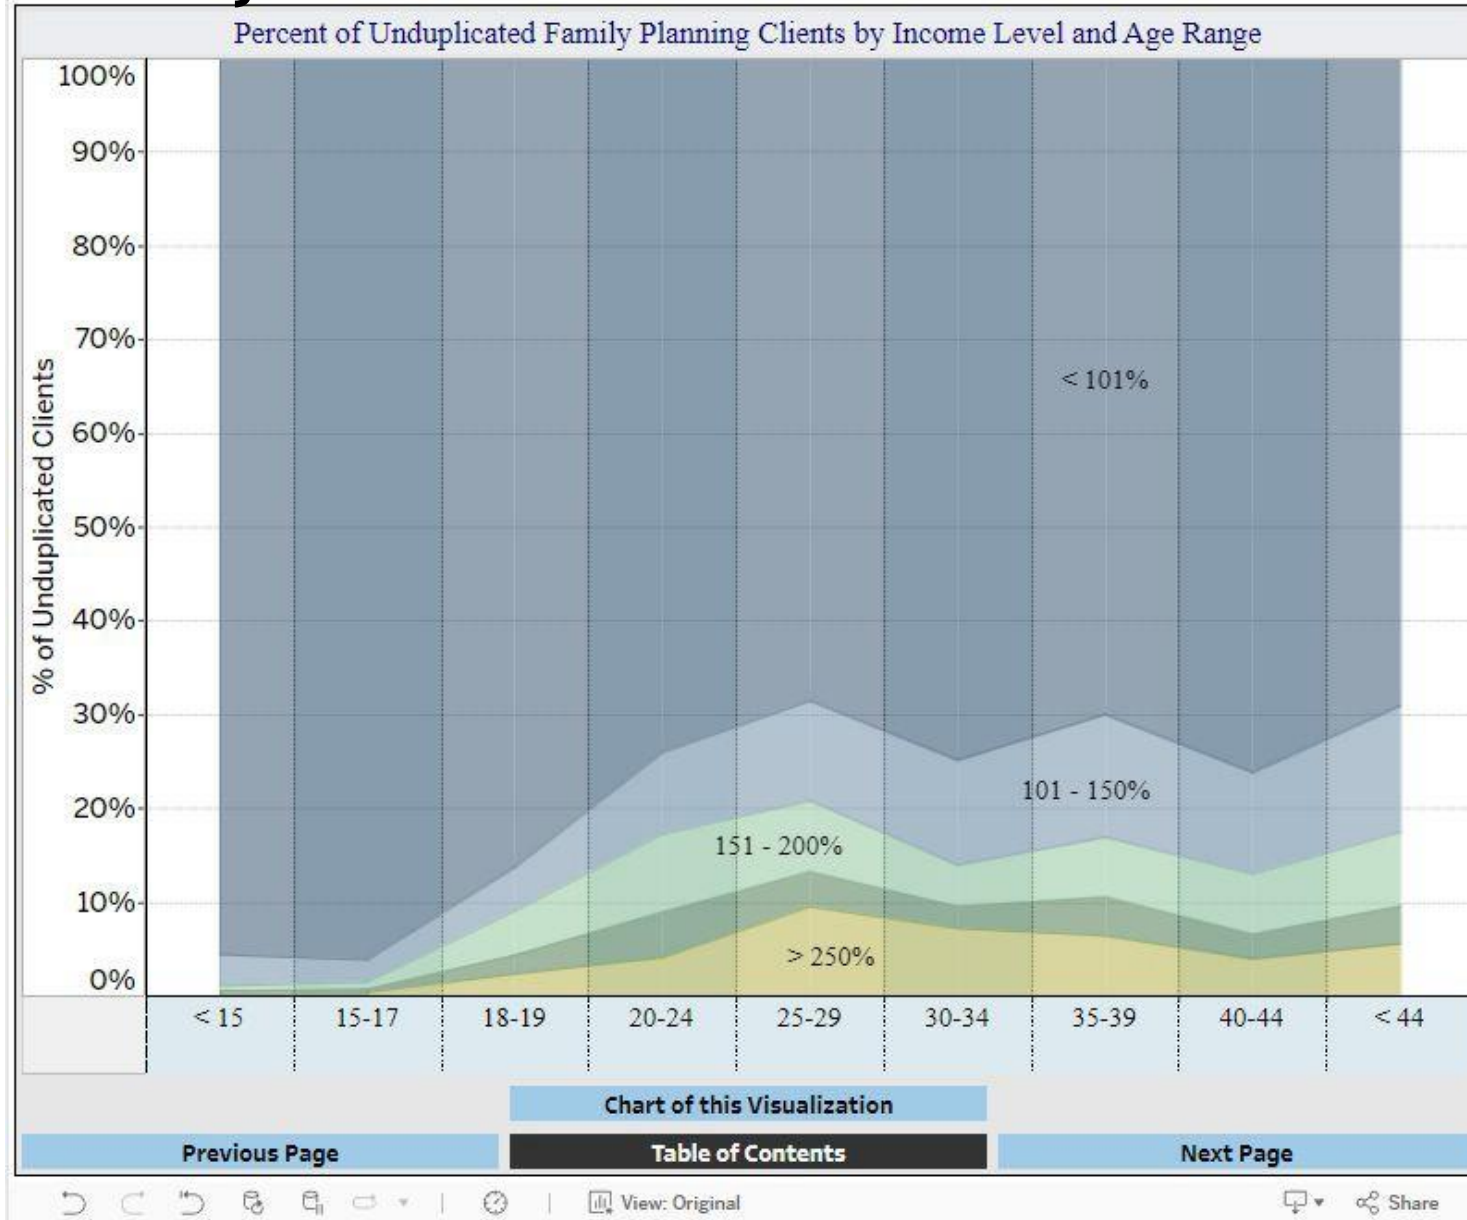

### Report 026 - Client Demographics (State Summary)

Date: 10/1/2022 12:00:00 AM - 4/4/2024 12:00:00 AM

Total # of Clients Served	544.0
Average Age of Clients (years)	6.9
Average Length Of Service (days)	447.9

### WWC Performance Measures Report Fiscal Year: 20232

#### Women Screened - Uninsured

Total # of Women Screened YTD

# 2,750

- Screenings for 21-39 (Uninsured)
- Screenings for 40-64 (Uninsured)

Category	Target # of women to be screened	Total # of women screened YTD	% of target
All Women	2398	2750	114.7%
Age 21-39	340	594	174.7%
Age 40-64	2058	2156	104.8%

- Filtering Options:
- Reimbursed**
- (All)
  - Yes
- Insurance**
- (All)
  - Insured
  - Uninsured

Measure	Meeting the Standard	Total	Performance & Standard
Rarely/Never Screened Pap or HPV	3	13	23%
Breast Diagnostic Work-up Completeness	4	5	80%
Breast Diagnostic Work-up Timeliness	2	4	50%
Cervical (All) Diagnostic Work-up Completeness	1	2	50%
Cervical (All) Diagnostic Work-up Timeliness	1	1	100%
Data Entry Timeliness	75	148	51%

#### State Results

Measure	Meeting the Standard	Total	Performance & Standard
Rarely/Never Screened Pap or HPV	444	1,865	
Breast Diagnostic Work-up Completeness	1,267	1,327	
Breast Diagnostic Work-up Timeliness	1,156	1,267	
Breast Cancer Treatment Started	31	48	
Breast Cancer Treatment Timeliness	26	31	
Cervical (All) Diagnostic Work-up Completeness	382	409	
Cervical Severe Abnormal Diagnostic Work-up Completeness	42	44	
Cervical (All) Diagnostic Work-up Timeliness	332	382	
Cervical Cancer Treatment Started	33	44	
Cervical Cancer Treatment Timeliness	30	33	
BCCP Initiation Timeliness	3	7	
BCCP Completion Timeliness	3	7	
Data Entry Timeliness	17,252	20,333	

Budget (Most Recent Bill Run Date)

March 15, 2024

% of FY Complete	70.8%
% of Funds Expended	81.9%
% Difference	11.0%
Total Budget	\$943,689
Total Spent	\$772,545

Budget Month-to-Month of Fiscal Year

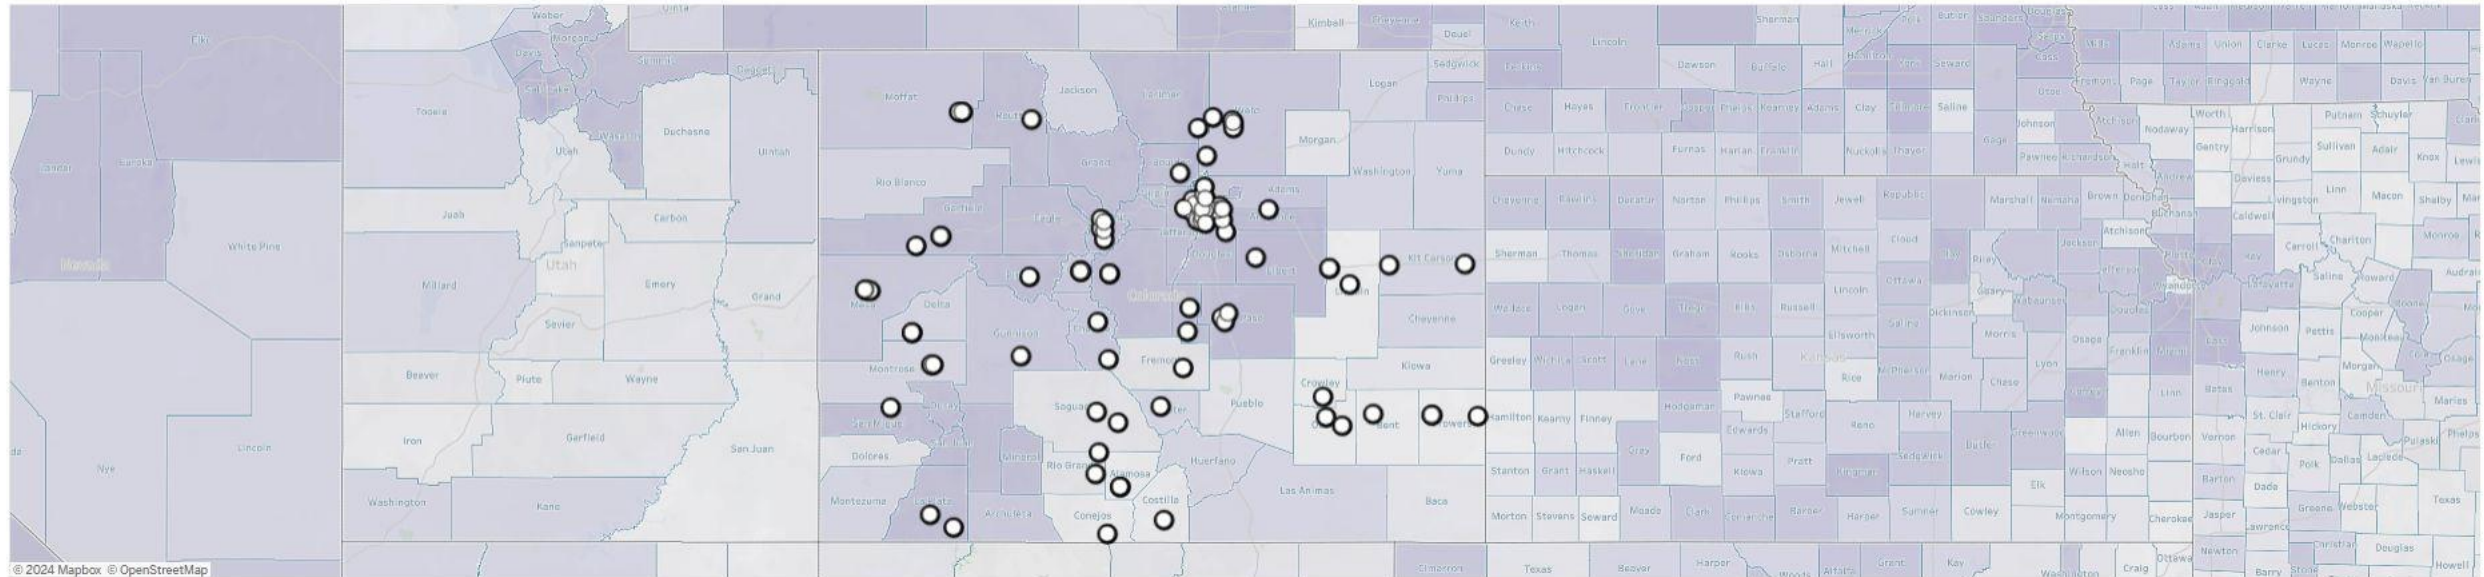

### 📍 Locations

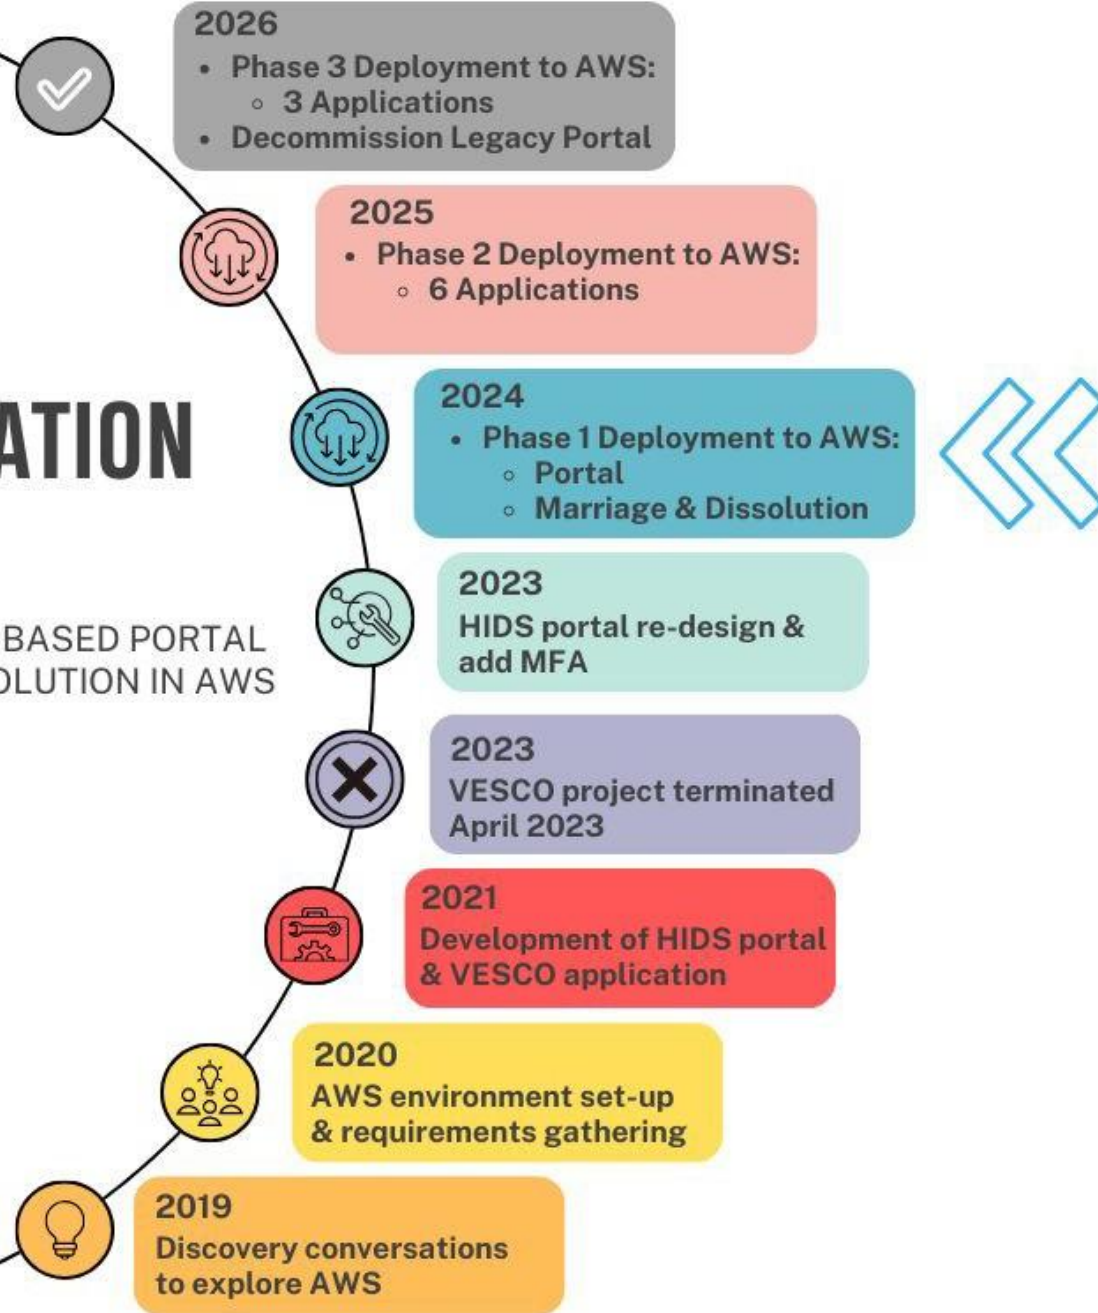

### Women's Wellness Connection / WISEWOMAN Clinic Locations

**Tool Bar:**  
- Use the "magnifying glass" icon to search for a City/County - To navigate the map use the "+" and "-" feature or explore other functions using the "triangle"  
**Note:** If a single point is on the map, click on the map to populate the rest of the clinics.

## HIDS MODERNIZATION TIMELINE

MOVING FROM A WEB-BASED PORTAL TO A CLOUD-BASED SOLUTION IN AWS

# Air Pollution Data Modernization

---

**Adam Wozniak**

Business Product Owner

Air Pollution Control Division

---

# Project Summary

---

- **Electronic Data Receipt and Processing**

All current processes are paper based. Our front-end modernization will allow us to receive all applications, reports and other submissions electronically. These documents will also be processed electronically.

- **Data Lake Construction**

Storing our data in a cloud environment will allow us to make data more available to interested parties, including the public. We will also be able to house structured data (tables, rows and columns) with unstructured data (video files, large text files, etc).

- **Data Visualization, Transparency and Citizen Engagement**

Our first data visualization tool was created and modified based on input received from the public. We continue to engage with the public to modify this tool or create new tools.

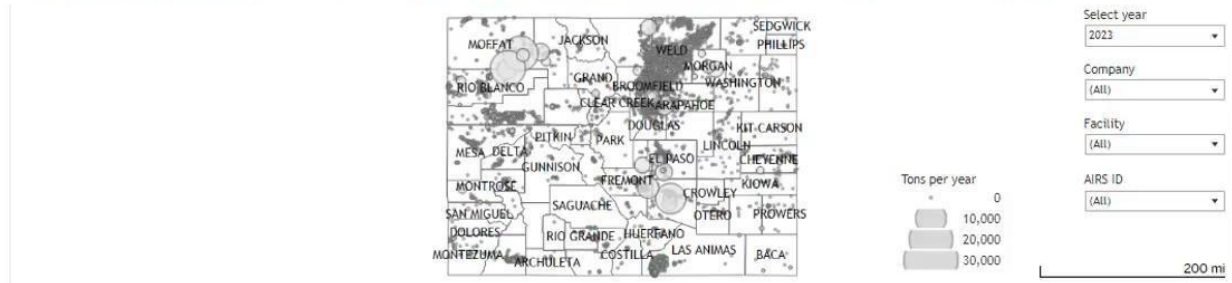

# Data Visualization

## Platform Demonstration

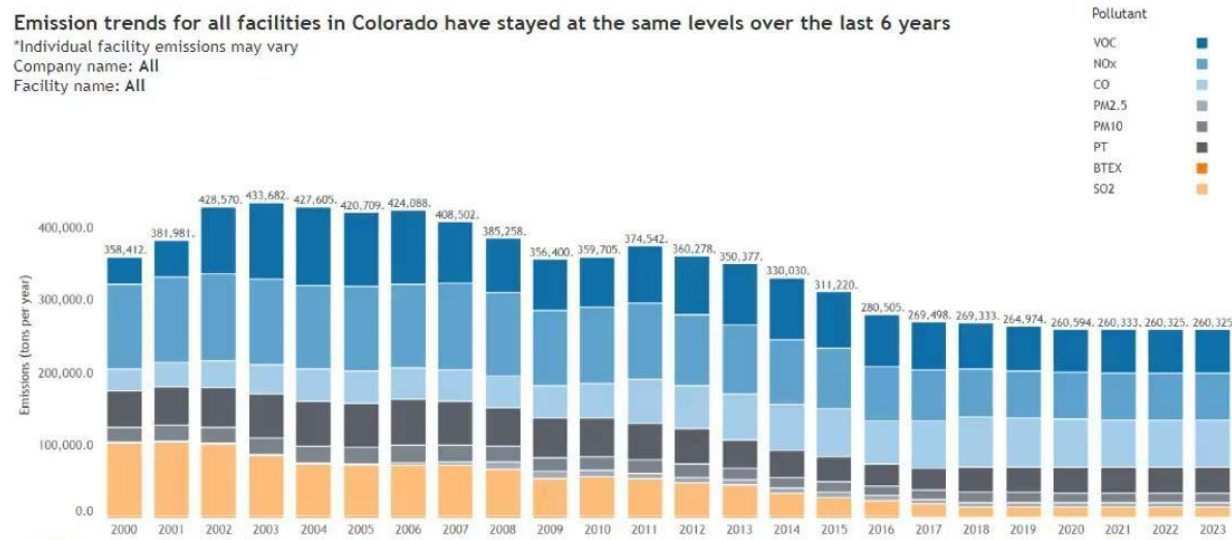

### Active facility locations and aggregated emissions: 2023

\*Emissions include only criteria pollutants (VOC, NOx, CO, PM, PM2.5, & SO2) and "BTEX" (Benzene, Toluene, Ethylbenzene and Xylenes)

### Emission trends for all facilities in Colorado have stayed at the same levels over the last 6 years

\*Individual facility emissions may vary  
Company name: All  
Facility name: All

Source: Colorado Air Inventory System (CAIS), Data updated 07/07/2023

## Wrap-up and Q&A

# THANK YOU!

Please reach out to any of the presenters, or connect with our eHealth Commissioner representative, Krystal Morwood ([krystal.morwood@state.co.us](mailto:krystal.morwood@state.co.us)), should you have additional/future questions about this, or other related CDPHE efforts.

# Systems for Evaluation: CHED

- Cancer Registry Web Plus
- eMaRC / Pathlab database
- RMCDS - Rocky Mountain Cancer Data Systems
- CoHID - Colorado Health Information Dataset (Tableau)
- HIDS - Health Informatics Data System Portal: (*CRCSN - Colorado Responds to Children with Special Needs (a.k.a. Birth Defects Registry); NBHS - Newborn Hearing Screening, iCare Application for Family Planning Services; CDS - Child and Youth with Special Health Care Needs Data System; SCCIDR - School and Childcare Immunization Reporting System; Marriage and Dissolution Application; WIC eReferral; eCaST - Electronic Cancer Surveillance and Tracking Application*)
- MMRS - Medical Marijuana Registry System (Tyler Technologies)
- COVIS - Colorado Vital Information System (Genesis System)
- EDRS - Electronic Death Registration System (Genesis System)
- Vital Records Solution, Records Management (CDPHE, Hyland)

# Systems for Evaluation: DCPHR

- BioNumerics / Biowatch (CDC, Homeland Security)
- DCPHR Portal (FluVac-Influenza Vaccination Tracking Tool, Colorado Refugee Database a.k.a Newcomer Health, Refugee Clinic, CDPHE COVID-19 Immunization data, Center of Excellence in Newcomer Health (COE), Refugee COE Data Exchange (RefEx), LPHA Data Exchange (HIEX))
- TBDB - Tuberculosis Database
- Zoonosis
- CNS - Colorado Notification System (Juvare), CVM - Colorado Volunteer Mobilizer (Juvare), EMResource - Emergency Medical Resources (EMSuites, Juvare)
- Spills Database
- EBAT - Electronic Breathalyzer Testing (COBRA DB)
- CEDRS III - Colorado Electronic Disease Reporting System, Auto Importer (aka Automapper, Auto Lab Matcher, Automatcher), ELR - Electronic Laboratory Reporting System, Manual Matcher
- PHinMS - Public Health Information Network Messaging System
- Rhapsody (CDPHE)
- CIG2 - Colorado Immunization Gateway, CIIS - Colorado Immunization Information System, CIIS Data Validation, Vaccine Clinic Resource Scheduling Tool (Vax Med)

# Systems for Evaluation: DCPHR, *continued*

- ISIIS Vision
- LIMS - Laboratory Information Management System (a.k.a. Chemware by Horizon)
- MTL Air Filter Database
- NBMS - Newborn Metabolic Screening (a.k.a. NBS-LIMS)
- iPassport
- C Diff - Clostridioides Difficile (CDC)
- Mugsi CDS - Case Detection System
- Peri-Natal Hepatitis System
- NME Review Tool
- REDCap (CDPHE)
- COE database
- COE newcomer health Warehouse
- IDR Reporting Staging Database

# Systems for Evaluation: HFEMSD

---

- ACO - Aspen Central Office
- ACTS - ASPEN Complaint Tracking System
- COHFI - Colorado Health Facilities Interactive
- EMTS-ImageTrend

# Systems for Evaluation: PSD

---

- MMRIA - Maternal Mortality Review Information Application
- CoHealthResources.org (Pica9)
- Smart Mouths Smart Kids data collection tool
- Colorado Health Systems Directory (a.k.a. Provider Directory)
- Health Navigator Registry
- Second Chance Tobacco (RMC Vendor)
- CNP - Colorado Nutrition Portal
- WIC -Women, Infants & Children (aka Compass)

# Systems for Evaluation: STI/HIV/VH

---

- CD4 Viral Load
- DCPHR Portal (CHADS, COHEART - Colorado HIV Evaluation and Response Treatment, STI Treatment)
- eHARS - Enhanced HIV/AIDS Reporting System
- eHARS All Image Viewer
- PRISM - Patient Reporting Investigation Surveillance Management
- PRISM-Denver STI Import Process
