Workgroup Updates for eHealth Commission
June 13, 2019
Care Coordination Workgroup

Roadmap Initiative	**Support Care Coordination in Communities Statewide**
Initiative Description	Develop, support, and enhance technical approaches that can be used to easily share care coordination information – within and across – communities. The initiative recognizes that approaches to care coordination may be unique to individual communities.
Project Scope	**Phase 1 Discovery - Complete** 1. Identify and leverage existing care coordination activities and alliances in Colorado such as: ☒ Health Care Systems ☒ Accountable Care Organizations (ACOs) ☒ Regional Accountable Entities (RAEs) ☒ Health Information Exchanges (HIEs) 2. Identify best practices and tools for care coordination. ☒ Performed a Care Coordination Environmental Scan and Action Plan **Phase 2** 1. ☒Keep the care coordination person (patient) centric 2. ☒Identify unique community needs and gaps in care coordination. 3. ☐Develop a prioritization method to determine high priority persons/population segments to address. 4. ☐ Coordinate the project(s) with existing care teams (and care team projects) to prevent duplication.
Accomplishments	1. 10.10.10/XGenesis conducted a two-day workshop on May 16 and 17 with representatives from various organizations including: Care Coordination Workgroup members; Colorado state health agencies: Denver Health; Children's Hospital; 211; Boulder County; United Way; CORHIO; QHN; Colorado Rural Health; UC Denver; CRISPer; and others. The outcome was a systems map using Kumu software to depict areas for potential collaboration with social-health information exchange to inform demonstration projects. 2. Post 10.10.10 workshop efforts include the preparation of a demonstration project business requirements document with a project prioritization scoring matrix and an Invitation to Negotiate. 3. Prepared a change management process document to accelerate demonstration project acceptance, adoption, and success. 4. Initiated discussions with the Hospital Transformation Program to ensure project alignment with existing care teams and avoid duplication.

Current Efforts	1. Finalizing the demonstration project business requirements, selection criteria and prioritization matrix. 2. Determining the timing and next steps for demonstration project selection and Invitation to Negotiate
Key Decisions	None
Next Steps	1. Complete prioritization and decision-making process for the demonstration project. 2. Complete and distribute the Invitation to Negotiate.
Commission Need	1. Support of demonstration project short term project and the Invitation to Negotiate process plans.
