OPERATIONALIZING HEALTH EQUITY

Colorado eHealth Commission

Toni Baruti
CTIO AllHealth Network
eHealth Commission Care Coordination Workgroup Sponsor

November 14, 2022

ALIGNMENT

AllHealth is taking the learnings from the eHealth Commission and aligning its infrastructure with the ideas of the group. We are preparing our organization to be proactive with our systems design to help advance health information technology in Colorado. This human-centered design is the key to improving health care equity, access and outcomes for the people we serve.

ACTION

- AllHealth's Core Health Equity Team is participating in the CHIC (Colorado Health Innovation) project, a partnership between the Center for Care Innovations and Prime Health powered by The Colorado Health Foundation. This Core team includes individuals from Technology & Innovation and Clinical.
- Demographics Project – AllHealth is standardizing all systems and forms to utilize the most inclusive categories for race, ethnicity, gender, sexual orientation and disability
- AllHealth has deployed a state-of-the-art Health Equity training curriculum developed by national leaders. This training is being deployed to the entire AllHealth Network staff and Board Members
- AllHealth is intentional about building diverse teams as well as partnering with diverse suppliers; this is where innovation is born.

AllHealth
NETWORK

ACTION

Continued

- AllHealth has integrated tools to address health inequities. We are partnering with Gray Matter Analytics and implementing a solution which incorporates SDoH and will enable our organization to quickly access dynamic value-based care (VBC) insights to identify members or patients at risk, achieve significant performance gains, and improve health and well-being outcomes.
- AllHealth has implemented a post-service tracking and monitoring team that follows-up and monitors clients; especially client's who have received acute care services.

AllHealth
NETWORK

WE HOPE:

To be the most impactful growth and recovery provider with communities that need us most.

MISSION

WE STRIVE EVERYDAY:

To nurture growth and recovery by caring for each other, our clients, and our future.

AllHealth[®]
NETWORK

EQUITY STATEMENT

WE RECOGNIZE:

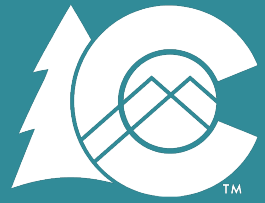

Systemic injustices and readily accept our responsibility in dismantling systems of oppression by building a brave space that cultivates an inclusive employee environment and a focus on culturally responsive care.

BITS MISSION

We deliver transformative business and technological solutions for CDHS programs and partners that empower the people we serve.

BITS VISION

BITS will be the premier strategic partner in delivering innovative solutions for the people we serve.

BITS VALUES

- Ethical
- Innovation
- Balance
- Purpose

Business Innovation, Technology & Security

CDHS created a new division for business technology called Business Innovation, Technology and Security (BITS) in November 2020

More control of technology resource hours and dollars

More agency accountability for technology outcomes (desired result of HB21-1236)

Ability to define clear roles and responsibilities for agency tech initiatives

WHY? Ensure that technology is meeting the needs of CDHS programs and the Coloradans we serve

Business Innovation, Technology & Security

Connections with the Colorado Health IT Roadmap!

BITS actively pushing for State ID resolution modernization as the first step to interoperability

Actively modernizing outdated databases in order to better access and operationalize data

Working closely with counties and the JAI project to ensure success

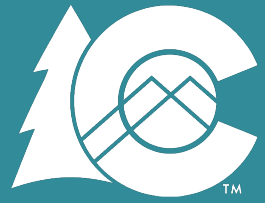

Considering a “Health Technology Product Owner” role that would coordinate efforts agency wide
