Health IT Roadmap

WE NEED TO HAVE....

Stakeholder Engagement and Participation

Innovation

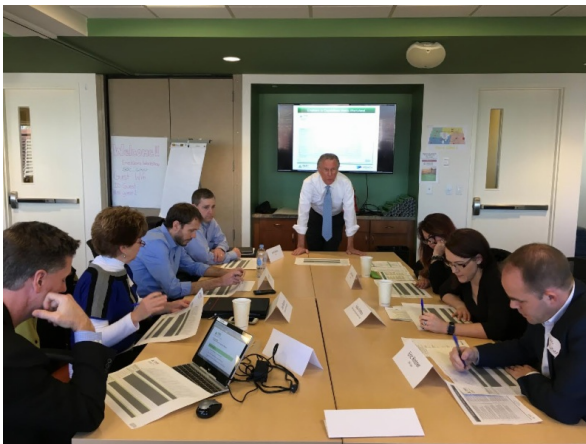

Resources/ Financial

Technology

Privacy and Security

Governance and Leadership

In February, stakeholders with technical experience and perspectives were invited to attend the Colorado Roadmaps enablers workshop. This workshop focused on identifying and describing the enablers that must be developed, implemented, improved, continued or discontinued in order to support the recently defined objectives for the Roadmap.

By understanding the infrastructure elements that need to be in place in the infrastructure to accomplish the objectives – the desired future state – and then by assessing the current state of Colorado’s Health IT infrastructure, any gaps that need to be filled will be identified and prioritized. The core team will then develop a set of proposed initiatives to close those gaps. Over the summer, the core team will conduct one or more public meetings to receive input and comments on the proposed initiatives before they are presented to the eHealth Commission for approval.

Stay tuned on future stakeholder engagement opportunities!

Telehealth and e-Visits Reimbursement Parity

Are You Billing for Your e-Visits?

Currently under Consideration: [HB17-1094](#)

As of January 1, 2017 – providers are now able to bill for telehealth visits as they would any other in-person office visit (telehealth reimbursement parity). This law also removed the “150,000 or fewer residents” limitation, expanding reimbursement coverage to urban as well as rural areas. (HB 15-1029). Currently under consideration is HB17-1094, which would provide additional clarifications for covered telehealth, such as the exclusion of voice-only telephone and texting, and that a health plan may apply the appropriate co payment, coinsurance, or deductible, but not exceed the corresponding amount of care that might have been delivered in-person.

eHealth Commission Update

Welcome New eHealth Commission Members

Jon Gottsegen

Jon Gottsegen currently serves as Chief Data Officer for the State of Colorado. In this position, Jon is responsible for improving processes and systems to facilitate sharing and interoperability of data and for enhancing data governance and management of state data assets.

Jon Gottsegen serves the eHealth Commission as the designee of the Governor's Office of Information Technology.

Michele Lueck

Michele Lueck is the president and CEO of the Colorado Health Institute. She joined the organization in November 2010, bringing nearly 20 years of health and health care experience. Her work ranges from consulting with leading academic organizations to serving rural health care providers. Her expertise in strategic communications informs the current work and direction of CHI.

Michele Lueck serves the eHealth Commission as a member with expertise in health policy.

Adam Brown

Adam Brown joined Anthem Blue Cross and Blue Shield in Colorado in October 2011 to serve as Chief of Staff to the State Plan President. Adam is responsible for directly supporting the Colorado state leadership team in a variety of planning, operational and administrative functions.

Adam Brown serves the eHealth Commission as a representative of health insurance providers.

Tania Zeigler

Tania Zeigler is the director of Digital Planning for Kaiser Permanente's Digital Experience Center. In her role, Tania develops digital strategy with Kaiser's Colorado, Northwest and Hawaii regions.

Tania Zeigler serves the eHealth Commission as a member with expertise in digital health.

Anne Boyer

Dr. Boyer (MD, MPH) is a Pediatric Hospitalist and Associate Chief Medical Information Officer (ACMIO) at Children's Hospital Colorado and has an appointment as Assistant Professor of Pediatrics with University of Colorado School of Medicine. She is currently focused on hospital technology strategies to improve internal and external communication and patient engagement with their care through technology.

Anne Boyer serves the eHealth Commission as a consumer engaged in health care.

Next Meeting: TODAY April 12th, 2017, 12:00-3:00 p.m.

Health Care Policy and Financing Conference Rooms 11 A,B,C.
