<p><b>Consent Management</b></p>	<p>Develop and implement a statewide approach to consent management that aligns and harmonizes the consents required for health information sharing in Colorado</p> <p>Mental Health Center of Denver/myColorado integration</p>	<p>Wes Williams</p>	<p>The workgroup is exploring options for consent models and discussing both tech and policy work planned and in-flight.</p> <p>Tech Focus:</p> <p>Collaboration between the Mental Health Center of Denver team and the myColorado team continues! The integration between the two systems ultimately will allow new Mental Health Center of Denver patients to have their identities verified through myColorado's service, which references DMV records, enhancing and securing the new patient workflow through the Mental Health Center of Denver mobile app. This use case is confirming an individual's identity before they are allowed to manage consent. The myColorado integration with the Mental Health Center of Denver telehealth app will likely be part of our February enhancements.</p> <p>Policy Focus:</p> <p>A small sub-group is working on gathering an advisory/stakeholder board to guide the development of CO State Health Information Guidance (SHIG). Led by Carrie and Stephanie from OeHI, they are exploring options for moving this forward, including stakeholder engagement and identifying priorities to begin this work. This is complementary to the Information Governance work being conducted by OeHI and the Colorado Health Institute.</p>	<p>No current decision items</p>

			The workgroup continues to await a notice of proposed rulemaking from SAMHSA regarding the changes to 42 CFR Part 2 legislation to go into effect at the end of March, 2021.	
<b>Data/Information Governance</b>	<p>To advance data and information governance efforts in support of state priorities.</p> <p>Use Cases:</p> <ol style="list-style-type: none"> <li>1) COVID PH Response</li> <li>2) Behavioral Health</li> <li>3) Care Coordination/</li> <li>4) Identity Resolution</li> <li>5) eCQM</li> </ol>	Morgan Honea	<p><b>A new contract with CHI was executed on 12/30, to continue CHI's support of the Statewide Information Governance Committee</b> and use case based sub-working groups that report to the committee and eHealth Commission. This includes a Care Coordination, Identity Resolution Task Force, and an eCQM use cases at this time.</p> <p>With input from OeHI and the Statewide Information Governance on Health Committee, CHI is continuing efforts to complete the Information Governance Guidebook, addressing behavioral health data integration as the next use case. The guidebook will be written to assist providers in sharing behavioral health data within regulatory frameworks.</p> <p>CHI has also recently completed a draft Quality Reporting Systems White Paper to identify and prioritize opportunities the state should focus on in the near term to increase the value of quality reporting in the state while reducing the reporting burden on providers. The White Paper was presented to the Multi-Payor Collaborative on 12/7 and was well received. Additional comments were received on the draft from HCPF and the Multi-Payor Collaborative.</p>	No current decision items
