Data Governance and Consent Management Review and Considerations

Stephanie Pugliese, Director, OeHI

Team OeHI

All Commissioners and Advisors

Consent Repository Feasibility Study

OeHI
Office of eHealth Innovation

Sponsored by: HB 24-1217

Key Findings:

- Capacity across our ecosystem is uneven
- Governance matters more than technology.
- Consent should enable a person's care, not slow it down

Focus of the Workgroup for 2026:

- Support the implementation of the **2025 Health IT Roadmap Goal 2** by focusing on establishing and supporting industry data standards.
- Advise on data standards for secure, ethical, and appropriate exchange of **medical, behavioral, and social health information**.
- Guide the scope, evaluation, and recommendation of data standards to ensure broad interoperability across all health and human services systems in Colorado.

Data Standards for Consideration

OeHI
Office of eHealth Innovation

Foundational & Mandated Standards		Emerging & Strategic Standards	
Potential Goals for the Workgroup: • Identify inconsistencies in implementation that are affecting interoperability. • Offer recommendations for addressing those gaps.		Potential Goals for the Workgroup: • Provide guidance in implementing new standards. • Develop policy recommendations that could support advancement.	
ICD-10 & SNOMED Focus Area: Clinical Terminology (diagnosis, procedures) General Implementation Status: Established, but expanding	**HL7 FHIR** Focus Area: Core Framework (APIs for data exchange) General Implementation Status: Maturing/Strategic	**Gravity Project Standards** Focus Area: Social Determinants of Health (SDOH) General Implementation Status: Emerging/New	**Human Services Data Specification (HSDS)** Focus Area: Community Resource Inventory (CRI) General Implementation Status: Emerging/Varies.
USCDI (United States Core Data for Interoperability) Focus Area: Core Data Set General Implementation Status: Mandated/Maturing	**HL7 v2 ADT** Focus Area: Medical/Physical Health (Admission, Discharge, Transfer) General Implementation Status: Well Implemented / Foundational	**Behavioral Health Data Standards** Focus Area: Specialized Data (e.g., mental health, substance use) General Implementation Status: Emerging/Lagging	**Provider Directory Standards** Focus Area: Provider & Facility Identity (Medical / Behavioral) General Implementation Status: Fragmented / Inconsistent
