# 2025 Colorado Health IT Roadmap Implementation Plan

*Stephanie Pugliese,  
Director, Office of eHealth Innovation*

# 2025 Health IT Roadmap Goals

OeHI

Office of eHealth Innovation

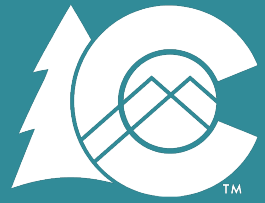

- Foster a collaborative environment where community members, patients, and health care providers actively participate in the design, implementation, and evaluation of health IT solutions to ensure they meet the various needs of the community.
- Develop and implement a robust framework that enhances the interoperability of health technology, establishes and supports industry standards, and strengthens cybersecurity measures to create a secure and seamless exchange of health information and resilient technology solutions.
- Encourage the development and implementation of innovative health IT solutions at the local and state level while ensuring ethical practices, stakeholder engagement, and compliance with regulatory standards.

## Goal 1: Increase Community Engagement in Health IT Solutions

- Establish community advisory panels comprising of diverse stakeholders to gather input on health IT initiatives.
- Develop a framework for a feedback loop that supports continuous improvement based on community insights for OeHI projects and share with other state agencies.
- Develop a dashboard that visualizes OeHI projects at various stages and the connection to other relevant state agency goals, data, and projects for transparency.

### Key Activities

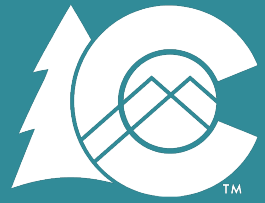

- Goals and key activities identified for duration of Roadmap (3-5 years)
- Building from key activities, we have identified proposed metrics
- Metrics are intended to track progress toward the goals and activities outlined in the Roadmap
- Metrics are NOT meant to be comprehensive of all associated work in the state or within OeHI
- The metrics presented today are intended for the upcoming State Fiscal Year (July 1, 2025-June 30, 2026)
