# Uniquely Identify a Person Across Systems

Health IT Roadmap Initiative #14

## Health IT Roadmap Initiative #14

This initiative develops and implements a comprehensive approach – that includes both health and social services information – that will be used across Colorado to uniquely identify a person **across multiple systems** and **points of care**.

# Identity Resolution - History - Roadmap

# Health IT Roadmap Initiative #14

Through collaborative work with Colorado's State Agencies that include

- Health Care Policy and Financing
- Human Services
- Office of Information Technology
- Public Health and Environment

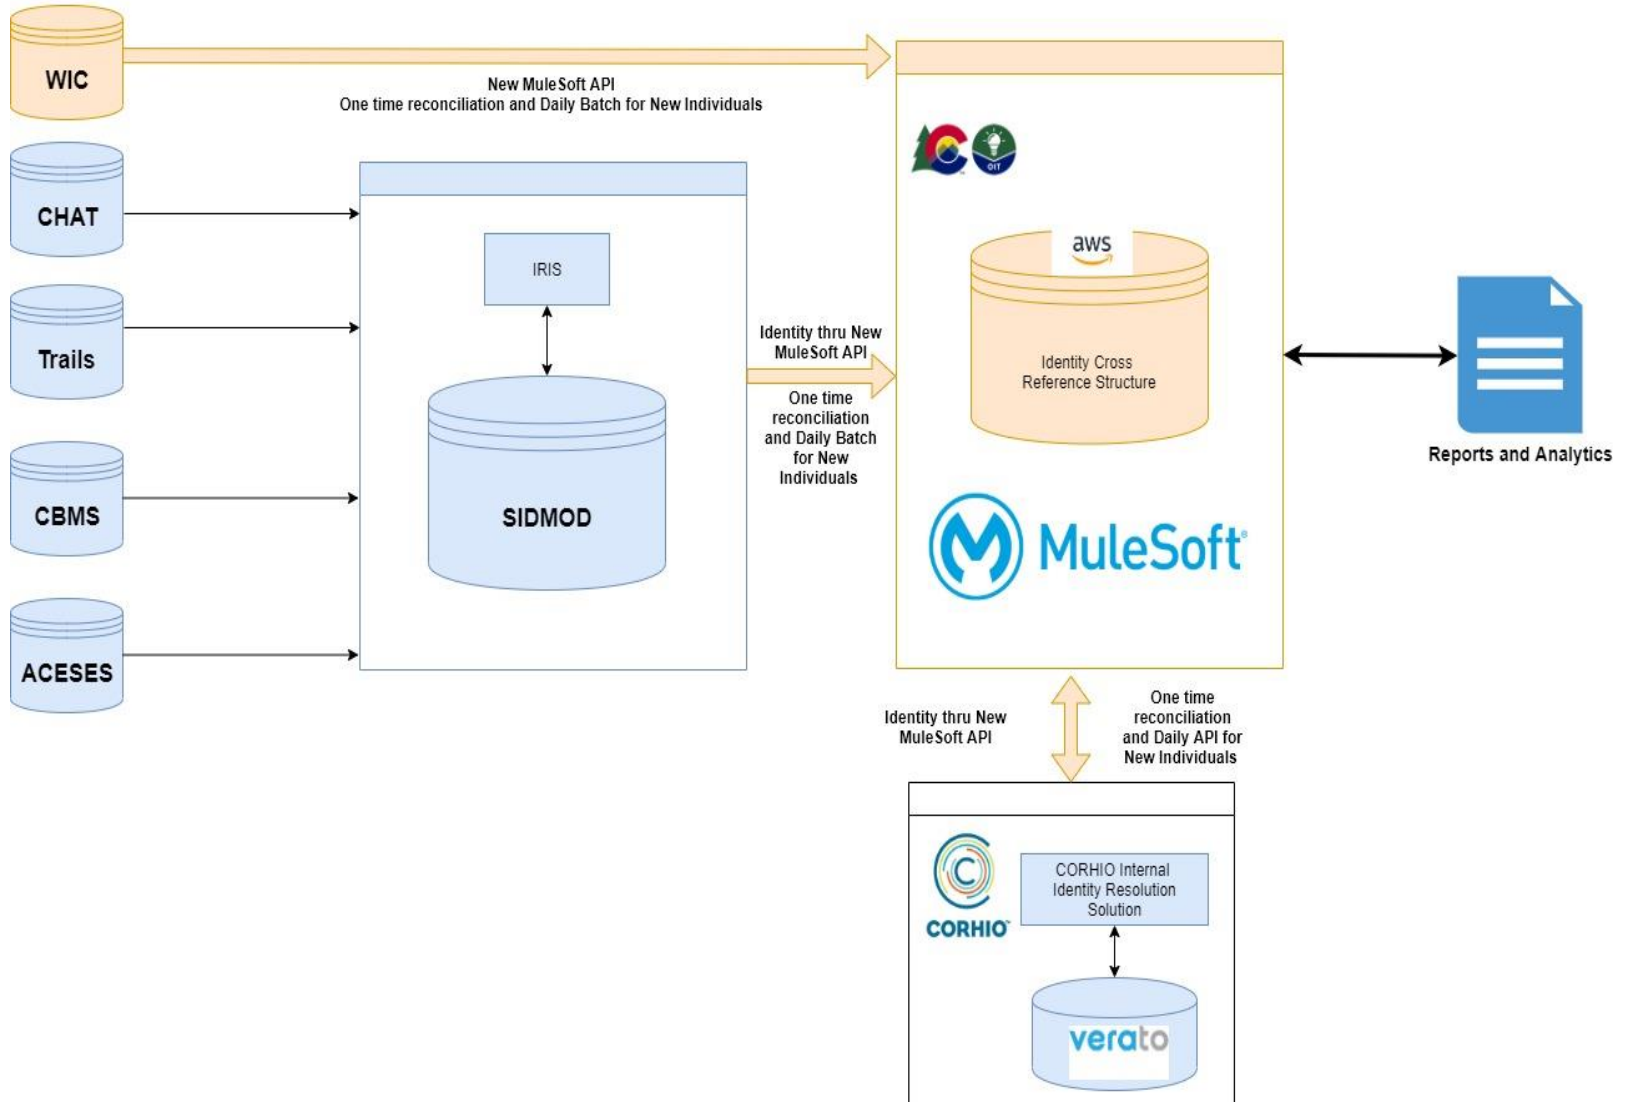

Office of eHealth Innovation steered by the eHealth Commission recognizes the need to solve community problems through data sharing and the modernization of current systems and process for uniquely identifying individuals who receive state health and human services benefits.

# OeHI Vision and Alignment

- Uniquely Identify individuals with-in and across systems that includes both health and social services information
- Determine actual cross enrollment percentages among programs
- To solve community problems through data sharing and the modernization of current systems and process for uniquely identifying individuals who receive state health and human services benefits
- Connect Health and Human services data with Health information Exchanges for care coordination and Social determinant health

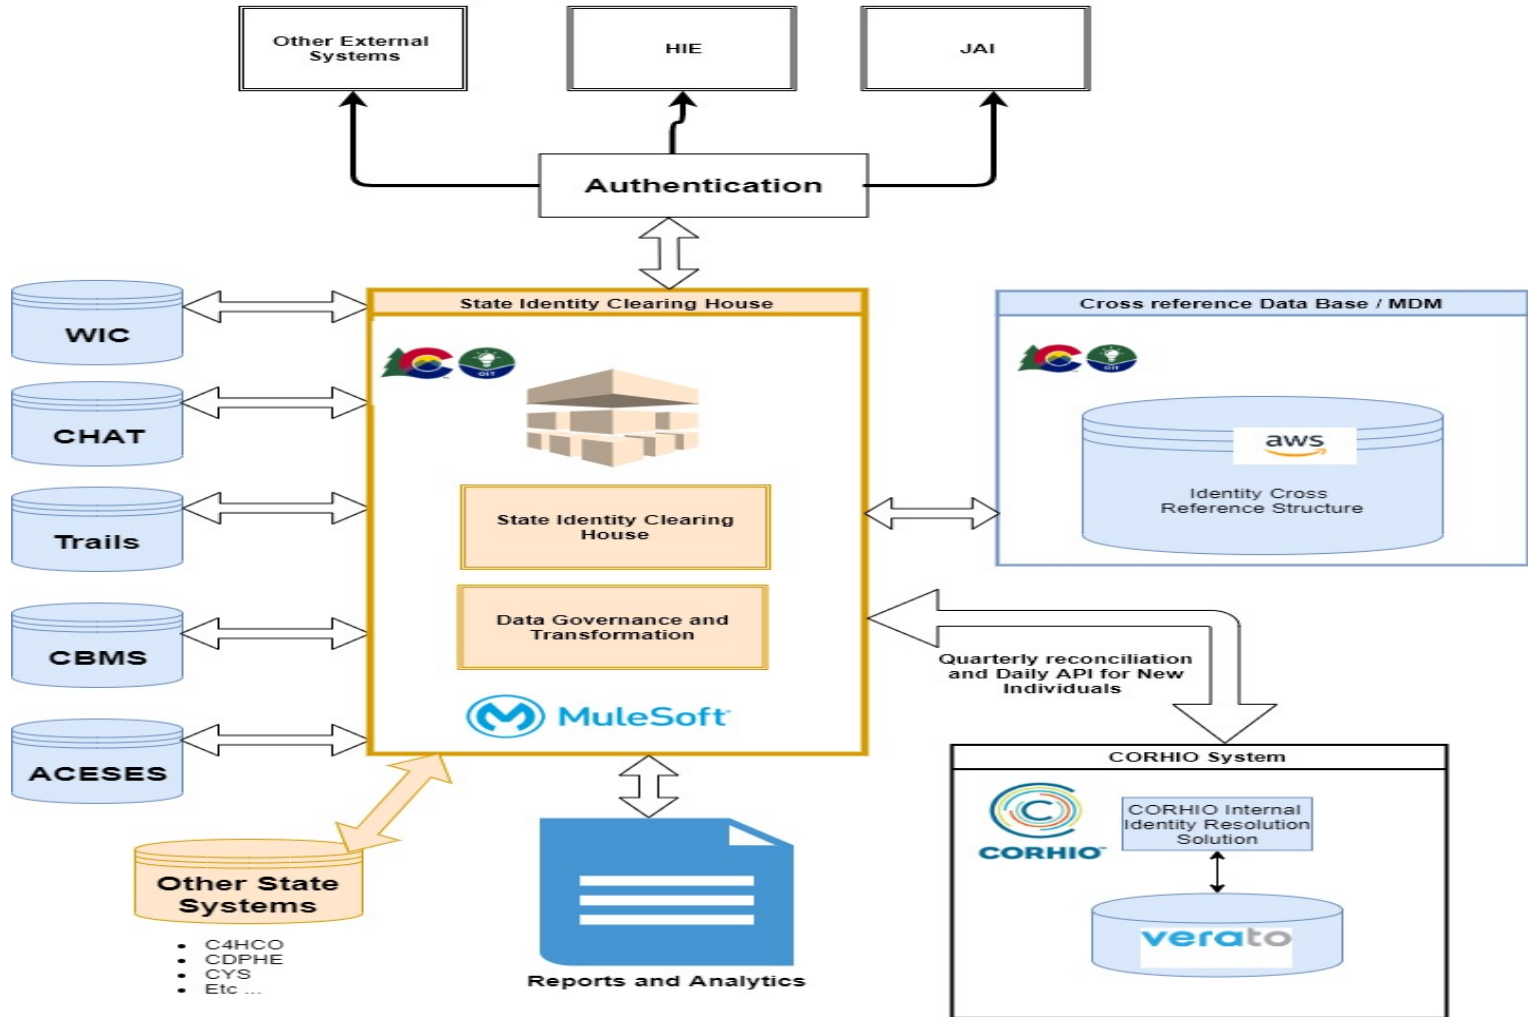

# OIT Identity Architecture

## Individual Identity Phase I

# OIT Identity Architecture

## Individual Identity Phase II

# Implementation Timeline and Budget

- \$996,000 for two-year Verato Licensing and initial set up for CORHIO
- Estimated timeline of 3 months to set up and initial run
- \$450,000 for development and implementation of cross reference database and APIs by OIT
- Estimated timeline of 5 months

# Funding Strategy

- OeHI proposes to support care coordination of Medicaid clients by funding Identity resolution and application program interfaces in alignment with the Joint Agency Interoperability Project. Both the state and health systems in Colorado have invested significant dollars in establishing Colorado's Regional Health Information Organization. The eHealth Commission, C4 Board, and Federal Partners have strongly encouraged the use of CORHIO's identity infrastructure.
- OeHI also proposes to continue funding an expanded pilot identity reports for WIC, SNAP, and HCPF until infrastructure is available to produce reports internally.
- Amount:\$3,400,000 - Colorado Health IT Roadmap Funds to be invested in the planning, design, and implementation of both individual and provider identity efforts by Sept 2021. Additional general funds are available to support some ongoing operations beginning in 2022. And sustainability planning of all HITECH funds is underway with Health Care Policy and Financing.
