## Welcome!

To keep you up to date on all things **Social Health Information Exchange (SHIE)**, the Office of eHealth Innovation (OeHI) will be releasing a regular newsletter providing updates, resources, and exciting news.

You can also check out our brand new [SHIE web page](#) or social media for more information.

Over the last fiscal year, OeHI partnered with [Merritt+Grace](#), a Colorado-based, women-owned small business, to better describe and visualize OeHI's SHIE strategy.

This work was informed by existing SHIE foundational documentation and national best practices, as well as multiple intensive design sessions with OeHI staff and extensive stakeholder input.

The SHIE Team was delighted to present Merritt+Grace's final products at the June eHealth Commission meeting, which you can watch [here](#).

Some highlights of OeHI's new SHIE communications are below:

SHIE is a network to securely share physical, behavioral, and social health information between providers involved in whole-person care.

SHIE supports Coloradans using **statewide unifying architecture**: a secure overarching network that will allow for the sharing of health information between providers.

### Our Core SHIE Values:

- **Accessibility:** Making the resources that best meet an individual's specific needs available, attainable, and equitable
- **Connectivity:** Actively seeking new paths for individuals, information, and insights to form dynamic relationships
- **Effectiveness:** Prioritizing efforts that advance people towards their intended outcomes
- **Humanity:** Having empathy and showing respect for each person's unique lived experience
- **Inclusivity:** Showing up for and purposefully involving everyone working towards whole-person health in the ways that matter to them
- **Reliability:** Taking great care to consistently align our words and our actions to earn trust
