Working Together Towards  
Whole Person Health

November 2023

Issue 1. Vol. 5

## SHIE is Officially Underway!

Last month we introduced you to part one of our [SHIEcosystem](#) and detailed OeHI's current Consent Management and Identity Resolution efforts. This month, we are **thrilled** to announce that **the SHIE contract has officially been executed!** To celebrate this milestone, we want to take a quick trip down memory lane, reaffirm our SHIE goals, and talk about what's next.

But first, we want to thank the incredible team of folks who collaborated with us on our Invitation to Negotiate (ITN). Our ITN team included representatives from:

- The Department of Health Care Policy and Financing (HCPF)
- The Office of Information Technology (OIT)
- The Colorado Department of Public Health and Environment (CDPHE)
- The Behavioral Health Administration (BHA)
- The Colorado Department of Human Services (CDHS)
- The Offices of the Governor and Lieutenant Governor
- The eHealth Commission
- And partners from all across the great state of Colorado.

Thank you!

## How Did We Get Here?

- December 2022 - ITN Open
- January 2023 - ITN Closed
- February to August 2023 - ITN Negotiations
- September 2023 - Intent to Award Resultant Announced
- November 2023 - SHIE Contract Execution (The real fun begins!)

---

## SHIE Goals

The purpose of SHIE is to integrate and exchange social care data and facilitate care coordination across technology systems. This process includes screenings that will be built into an assessment and care plan that will, in the end, provide users with a full referral plan including behavioral, physical and social health services.

OeHI's goals remain the same: we want to build on existing community networks, not replace them with new ones. Our objective is to meet each community where they are.

---

## What's Next?

The SHIE team recently met with Resultant for a Contract Kickoff meeting! Our top priorities now are finalizing the SHIE product roadmap and project plan, and diving right into the work!

We look forward to creating more community driven infrastructure opportunities and partnerships, and we would love to learn from community partners about current care coordination workflows and challenges. **If you or a member of your organization is interested in participating in our SHIE Discovery Sessions, please fill out the form below!**
