Roadmap Initiative	Ease Quality Reporting Burden
Initiative Description	This initiative provides technology support to ease the capture, aggregation, and reporting of agreed upon, quality reporting measures.
Project Scope	This multi-year effort is focused on leveraging investments from the State Innovation Model (SIM) to advance the automatic reporting of electronic clinical quality measure reports. This project is focused on evaluating and scaling technical infrastructure investments and continuing data governance.
Accomplishments	1. Sent survey for feedback on data governance contractor role and scope
Current Efforts	1. Evaluating State Innovation model technical infrastructure investments and determining how to best scale efforts going forward. 2. Launch eCQM eHealth Commission Working Group 3. Develop Data Governance Committee 4. Drafting post-SIM bridge contract 5. Drafting provider communication plan
Key Decisions	How to best scale SIM investments going forward.
Next Steps	1. Align with key use cases such as HCPF's Alternative Payment Model and Medicare's Quality Payment Program 2. Meet with CORHIO and Burst IQ to discuss leveraging block chain technology.
Commission Need	State innovation model/ OeHI workgroup efforts moving forward, need for a eHealth Commission sponsor of initiative.
